

Document 10: Sports & Extracurricular Guidelines

Institution: Hyderabad Institute of Technology (HIT)

Document Version: 2026.1

Effective Academic Year: 2026-2027

1. Sports Infrastructure and Operating Hours

Hyderabad Institute of Technology (HIT) believes in the holistic development of its engineering students. The campus houses the Major Dhyan Chand Indoor Sports Complex, a floodlit outdoor athletics track, and a state-of-the-art gymnasium. These facilities are maintained through the annual sports fee collected during admission and are exclusively for the use of enrolled students and active faculty members.

To ensure equitable access and maintain academic priorities, the sports facilities operate on a strictly regulated time schedule. The outdoor grounds and indoor courts are closed during peak academic instruction hours (9:30 AM to 4:00 PM).

- **Morning Session:** 5:30 AM to 8:30 AM (Open to all students).
- **Evening Session:** 4:30 PM to 9:00 PM (Reserved primarily for varsity team practice and club tournaments).
- **Gymnasium Access:** The gym operates on staggered shifts to prevent overcrowding. Male students are allotted the 5:30 AM to 7:30 AM and 6:30 PM to 8:30 PM slots. Female students are allotted the exclusive 7:30 AM to 8:30 AM and 4:30 PM to 6:30 PM slots.

Entry to the indoor sports complex and gymnasium requires mandatory swiping of the biometric ID card. Students utilizing the gymnasium must bring a personal towel and wear proper non-marking athletic shoes. Entry in jeans, formal trousers, or sandals is strictly prohibited and will result in a one-week suspension from the sports complex.

2. Equipment Issuance and Damage Penalties

The Department of Physical Education provides students with high-quality sporting equipment for daily recreational use. To borrow equipment such as basketballs, badminton racquets, cricket kits, or chess boards, a student must physically surrender their university ID card at the Sports Issue Desk.

- **Time Limit:** Equipment is issued for a maximum duration of two hours per session.
- **Late Return Fine:** If a student fails to return the equipment within the two-hour window, a late penalty of ₹50 per hour is automatically added to their digital student ledger.
- **Damage and Loss:** Students are fully responsible for the integrity of the issued items. Normal wear and tear (such as a broken badminton string) is covered by the university. However, if a student loses a piece of equipment or maliciously breaks it (such as snapping a cricket bat in frustration), they must pay the exact market replacement cost plus a ₹500 administrative procurement fee. For example, losing a standard leather cricket ball incurs an immediate fine of ₹800. The ID card will not be returned until the fine is cleared via the online portal.

3. Varsity Team Selection and Athletic Academic Waivers

The university fields official varsity teams, known as the "HIT Titans," across major sports including Cricket, Basketball, Football, Volleyball, and Athletics. Representing the university at state and national inter-engineering tournaments is a prestigious honor governed by the Student Activities Council (SAC).

Open tryouts for all varsity teams are conducted exclusively during the third week of August every academic year. Selection is based purely on merit, physical fitness, and tactical skill, evaluated by external certified coaches.

However, athletic talent does not exempt a student from academic rigor. To secure and maintain a spot on a varsity team, a student must adhere to the **Athlete**

Academic Minimums:

- The student must maintain a Cumulative Grade Point Average (CGPA) of at least 6.0.
- The student must not have more than two active academic backlogs at the time of the August tryouts.
- If an active varsity player's CGPA drops below 6.0 at the end of the odd semester, they are immediately benched and stripped of their team jersey for the remainder of the academic year.

Students who successfully maintain their academic standing and are selected for the varsity team receive an **Athletic Attendance Waiver**. While standard students must maintain 75% attendance, varsity athletes are legally permitted to drop their attendance to a minimum of 65% without requiring medical condonation, provided the missed days directly correlate with official tournament travel dates.

4. Formation and Governance of Student Clubs

Extracurricular life at HIT is driven by student-led organizations. The campus hosts over thirty active clubs, divided into Technical Societies (such as the Robotics Club, Coding Cell, and Aero-Design Team) and Cultural Clubs (such as the Drama Society, Photography Club, and Debate Forum).

Rules for establishing a new club:

1. **Minimum Cohort:** A new club requires a minimum founding cohort of 25 students from at least two different engineering branches.
2. **Faculty Advisor:** The club must secure a full-time HIT faculty member to act as the official Faculty Advisor and sign off on all activities.
3. **Constitution Submission:** The founders must draft a formal Club Constitution outlining the club's objectives, leadership hierarchy, and planned semester activities.
4. **Trial Period:** Newly approved clubs operate on a probationary status for one academic year. If they fail to organize at least two campus-wide events during this trial period, the club is permanently dissolved by the SAC.

No student is permitted to hold a Core Committee or Executive Board position (President, Vice-President, Treasurer, or Secretary) in more than one club simultaneously. Furthermore, final-year students (7th and 8th semester) are barred from holding Executive Board positions to ensure they remain focused on their major projects and placement activities.

5. Event Organization and Financial Budgeting Limits

Student clubs are encouraged to organize workshops, guest lectures, and intra-college competitions. However, the financial pipelines for these events are heavily regulated to prevent the misuse of institutional funds.

Every registered club is entitled to request funding from the Student Activities Council budget.

- **Minor Events:** For standard workshops or internal competitions, a club can request a maximum university grant of ₹15,000 per semester.
- **Major Fests:** For the university's two flagship annual festivals—the technical symposium *TechNova* (held in March) and the cultural festival *Sanskriti* (held in November)—the core organizing committees are granted a centralized budget ceiling of ₹7,50,000 each.

Sponsorship Regulations: Clubs are permitted to approach corporate entities for event sponsorships. However, cash sponsorships are strictly illegal on campus. All corporate sponsorship money must be transferred via NEFT/RTGS directly into the official "HIT Student Activities" institutional bank account. If any student or faculty advisor is caught receiving sponsorship funds into their personal UPI or private bank account, they will face immediate suspension and potential criminal charges for financial embezzlement.

6. Auditorium Booking and Misuse Penalties

The central 1,200-seat Dr. Homi Bhabha Auditorium is the premier venue for major extracurricular activities, guest lectures, and cultural performances. Due to high demand, clubs must book the venue through the SAC portal at least 14 days in advance.

The auditorium is a highly sensitive infrastructure zone. The following regulations are strictly enforced during any student-led event:

- **Food and Beverage Ban:** The consumption of food, soft drinks, or even chewing gum is entirely prohibited inside the auditorium seating area.
- **Capacity Limits:** Issuing entry passes beyond the 1,200-seat capacity is a fire-code violation. The event will be forcefully shut down by campus security if students are found sitting on the staircases or standing in the aisles.
- **Damage Fines:** The organizing club is held entirely financially liable for the state of the auditorium. If the post-event inspection reveals torn seat fabric, broken stage lights, or heavy littering, a blanket fine of ₹10,000 is automatically deducted from the club's future semester budget, and the club's Executive Board will face disciplinary action.
